#NeighborsHelpingNeighbors

Thank you for your support!

We would love to help you coordinate a donation drive to benefit the neighbors we serve each month.

Organizing a Donation Drive is Easy

1. **Decide what kind of drive you would like to host.** Please consider choosing items from our list of toiletries, essentials, food pantry or school supplies.
2. **Let us know you are planning a drive.** Email us at info@pinevilleneighbors.org to register your event, what you would like to do and when you would like to do it.
3. **Conduct your drive.** Once you register, we can provide our logos for a flier and help promote your event if needed. Communication is key and we are happy to support you with this.
4. **Schedule a time to drop off your collection** and – with your permission – have your picture taken so we can thank you on social media.
 - **Please note that we are unable to provide counts or quantities of items that are donated to us by individual groups.** It is a great idea to keep your own tally of all the items you collect so that at the end of the drive you can have a final number and know how well your group did.
5. **Thank your supporters** (and we will post our thanks as well)!
